

Welcome to Your Dual Enrollment Summer Reading Assignment!

Mrs. Champlin – champlinj@myndhs365.com

***The Anthropocene Reviewed* - Read, Annotate, Write**

(Due: Day 2 of class)

***The Anthropocene Reviewed* by John Green**

Annotations: I will be looking at your annotations during the first few days of class. I will be checking to see that your annotations show active engagement with the text through *thoughtful comments and questions*. In addition to highlighting/underlining portions of the text, your annotations must include *thoughtful and relevant* hand-written comments (margins or post-its). I do not expect every page to be filled with highlights and comments, but I do expect each chapter to be substantially annotated.

Assignment:

Write a paragraph about one of the things that Green reviews. Explain how it is connected to his life and justify the rating he gives. Then, in a paragraph or two describe an object that is important to you. What role has it played in your life? Then, give it a rating.
